**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Thomas M. Coester #39,637 on April 17, 2006.

The application has been amended as follows:

In claim 28, line 6, replace " relation" with – relative –

In claim 35, line 6, replace " relation" with – relative –

In claim 41, line 8, replace " relation" with – relative –

Remarks: the examiner's amendment dated 04/03/2006, line 8, page 2, "In claim 1" should be "In claim 28", this is to correct a typing error.

Amendments to claims 28, 35 and 41 were made to correct a typing error, this system is deemed to be non-obvious over the systems of the prior art.

***Allowable Subject Matter***

2. Claims 28-46 are allowed.

***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance:

Independent claims 28, 35 and 41 contain allowable subject matter. None of the prior art of record shows or fairly suggests the claimed invention.

Regarding claim 28:

The primary reason for the allowance of claim 28 is the inclusion of the apparatus including the mathematical function linear relative to the count. It is these features found in the claim, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Claims 29-34 are allowed due to their dependency on claim 28.

Regarding claim 35:

The primary reason for the allowance of claim 35 is the inclusion of the method including the mathematical function linear relative to the number of times the first function unit was activated. It is these features found in the claim, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Claims 36-40 are allowed due to their dependency on claim 35.

Regarding claim 41:

The primary reason for the allowance of claim 41 is the inclusion of a machine-readable medium containing instructions that when executed by a machine, cause the machine to perform operation including the mathematical function linear relative to the number of times the first function unit was activated. It is these features found in the claim, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Claims 42-46 are allowed due to their dependency on claim 35

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
